CITY COUNCIL.

Adoption of the Retail Licenses Regulation By-Law.

The regular weekly meeting of the City Council was held last evening. Present: Mayor Bithet and Councillors McKillican, Smith, Braden, Grant, Ward and Warner.

COMMUNICATIONS.

From R. B. McMicking, asking for the purchase of 2000 carbons and 45 fathoms of ropes for electric light.

In reply to Councillor Ward, Councillor Grant explained that at the time the light was taken over, a temporary arrangement was made with Mr. McMicking to do the electrician's work, trim the lamps, &c., for $150 per month. It might be advisable to continue the bargain until the definite arrangements had been made as to increasing the light.

On motion the supplies were ordered to be granted.

From John Hagarty, asking permission to take up the sidewalk on Johnson street, near the Grand Pacific, during the day time. Granted.

Accounts for the month of October were read, aggregating $2763.26, which were referred to the Finance Committee and ordered to be paid if found correct.

MOTIONS.

Councillor Smith moved that a sum, not exceeding $30, be placed at the disposal of the Water Committee, to prepare a map showing the various water mains of the city. Seconded and carried.

STREET COMMITTEE.

The report of the Street Committee was submitted as follows:

That with reference to the communication of B. W. Pearse and J. H. McLaughlin the committee are not aware that any agreement had been made with Mr. Pearse to open up Fern-Wood road throughout this year. They consider they had caused sufficient work to be done to make it passable so far as necessary, and that the incoming council might grade it properly next year.

That Mr. Truran had been instructed to take gravel from the Fern-Wood road by Mr. Hayward and that Mr. Hayward had obtained permission from one or two of the councillors; further, that instructions would be given to Mr. Truran to have that portion of the road damaged, put in proper repair.

That the side walk asked for on Montreal street, James Bay would cost $67.

They recommended that the portion of John street running westward from Bridge street be made passable and that a portion of the said street be macadamized, but did not see their way clear to have that done as no rock is crushed in the neighborhood.

Lastly, they stated that a side walk on John street, four feet wide would cost $50.

Councillor Ward moved that the report do lie on the table. The recommendations would probably be carried out by our predecessors. It would be impossible to finish all the work that had already been ordered.

Councillor Warner moved that the report be received and filed and that the sidewalks on Bridge and Montreal streets be built. Carried.

WATER COMMITTEE.

From the water works committee, reporting in favor of the extension of the water pipes to the residence of Senator McDonald, and asking for further time to consider Mr. Noble's application.

Adopted.

LIGHT COMMITTEE.

From the Street Lighting Committee, recommending:

1st. That there be erected three additional masts with such other individual lamps as may be found necessary after consulting competent opinions. Each mast to have lamps of at least 1200 candle power.

2d. That a mast be erected at or near the junction of Simcoe and Menzies streets, James Bay; one near the bend of Fort street opposite the public school, and the other near the west end of Rock Bay bridge.

3rd. That the electric light companies' represented on the coast by agents, be at once notified of our requirements, and invited to furnish estimates for the additional electric light plant required, etc.

Councillor Grant moved the adoption of the report, and suggested that the various electric light agencies on the coast be invited to send in tenders by the 1st of December, the position of masts to be decided at next meeting of the Council. Adopted.

CLOSING SALOONS.

The Council went into committee of the whole on the Liquor License Regulation By-law, Mr. Braden in the chair.

The first clause, closing saloons between 12 and 6 o'clock on week nights, and between 10 a. m. and 5 p. m. on Sundays, was adopted.

The second clause, compelling the youth of the city under the ages of 16 years to be off the streets at 10 o'clock p. m. under penalty of arrest and subsequent punishment, was ordered struck out with the suggestion that a separate by-law be introduced to deal with the matter.

Clause three, imposing penalties, the citing clause and preamble were adopted, the committee rose and reported, and the by-law received its second reading, and was passed.

Council then adjourned.

POLICE COURT.

(Before E. Johnson, S. M.)

THURSDAY, Nov. 5.

Daniel O'Connor for being drunk was fined $5, in default one week. Daniel is an old offender, but promised to do better if His Honor would only let him off this time. In vain.

John W. Nettleton, charged with assaulting F. Van Horst by getting on the top of him with a razor with intent to do him bodily harm. He was also charged with ill-using Sergeant Shepherd while performing his duty by striking him in the face and kicking him, also with an attempt to set fire to the prison by making a fire with his clothes after being locked up. Prisoner pleaded guilty to all the charges. He was remanded till to-morrow.

Court adjourned.

OCTOBER WEATHER.

The month of October consisted of 18 fine sunshiny days; cloudy with occasional sunshine, 3; cloudy but fair, 4; rainy, 3; alternate sunshine and shower, 3. Two mornings were frosty and three foggy. On the 31st it rained nearly all day. The mean temperature for October was 50.20; maximum, 59.10; minimum, 41.15; highest, 67 on the 5th; lowest, 33 on the 11th; rainfall, 2.73; to 31st Oct., 1885, (total) 22.20. During October grass and weeds have flourished exceedingly. Pigweed, May weed, Low's thistle and other farmers' pests are coming into second blossom.

A REVOLTING STORY.

Small-pox Patients are Abused in Montreal While Dying.

Brutal Treatment After Their Death--Their Bodies Bumping Down Stairs.

A Montreal dispatch of the 28th says: The facts concerning the treatment and experience of patients at St. Roch's hospital, which have just come to light are revolting in the extreme. Mrs. Borland, daughter-in-law of Rev. J. Borland, well known in this city, who entered the hospital on Sept. 29, last, says that when she was sent to the hospital she was placed in a bed on which there was one sheet to lie on and a thin, ragged, dirty blanket for a covering. For the first few days she suffered from cold, owing to the window just above her head being partially open and a too scanty supply of clothing. While she was still suffering from cold, so were several others, a man of the hospital was appealed to for additional covering, when he brought up several ragged blankets which he distributed, saying, as he did so, not to let the nuns know or "they would

FLAY HELL

with him." Dr. Nolin gave no medical attendance, simply looking at the cards over the beds in the morning, dropping here and there an occasional remark as any unprofessional man might do, and thus passing along and out. Mrs. Borland and Mrs. Hopkins, who were both patients, declared that Dr. Nolin gave them no professional attention until, in Mrs. Borland's case, she asked for some aperient medicine, when he gave her a dose of what he called mineral water, the effect of which for four days was a most painful diarrhœa experienced by Mrs. Borland, which was followed for five consecutive days by hemorrhage, which was so profuse as to run through the bed on to the floor of the ward. Dr. Nolin then gave her a powder which, while it stopped the hemorrhage, nevertheless gave her

A PAIN IN THE SIDE,

which she experiences to the present day. There was no attendance given by regular nurses, that being principally done by convalescent patients. The cries of patients for a glass of water were heartrending, to be met by the response "shut up you." The stench of the place was most revolting, and anything in the way of deodorizing or disinfecting was never thought of. The heartlessness, they said with which patients were treated in St. Roch's hospital was remarkable. In the case of a Miss Norris, to relieve a choking sensation, application was made to Dr. Nolin. After much entreaty he at length made his appearance, when he gave her some relief. This was about 10 o'clock at night, and nothing more was done or attempted. The following day she was removed to the black smallpox ward, and without any further attention was

ALLOWED TO DIE

which she did in a couple of days afterward. No attention was paid to anybody the moment they entered the black smallpox ward, and the cries that came from that awful place were heartrending. After the first night of Mrs. Borland's stay in the hospital a poor woman after her death was rolled out of the bed on which she died and allowed to fall like a log on the wooden floor. The first evening Mrs. Borland spent in the hospital, a woman who had been a cook for Rev. Mr. Wood died under very terrible circumstances. For hours previous to her death and as long as she could speak even in a whisper, she cried

"FOR GOD'S SAKE GIVE ME SOME WATER,"

but the only attention given her was to tell her to shut up. She died during the night. Previous to her death she writhed in her agony and fell out of bed. Then two men were called, who lifted and throwing her into bed said, "Now sit on her and keep her down." When dead a sheet was placed on the floor and she was rolled on to it like a log. Then they pinned up the sheet around her and two men dragged her down stairs, her body thumping on the stairs could be heard in the ward.

A number of similar cases could be given, but let these suffice as a sample which are corroborated from undoubted authority. There was only one nun to four wards and with eight in each ward, the patients were not attended to, but it is extremely doubtful if they would have been in any case. The convalescent patients were those who did anything in the way of nursing. The food was often not fit to eat. Ragged pieces of boiled beef were served up in dishes with potatoes under it. A thick soup and sometimes a thin sort of hash was given to the patients. The tea was bad, the soup was burned and the patients were asked to gulp it down some way.

ARMSTRONG ABDUCTION CASE.

Stead Concludes His Address Amidst Great Applause.

LONDON, Oct. 4.—The trial of Stead and other defendants in the Armstrong abduction case was resumed to-day. Charles Russell, counsel for the defence, declared that the taking of a child away with her mother's consent, was no crime; but the judge held otherwise. Stead, who acts as his own counsel, made a powerful speech to the jury, dwelling particularly on the righteousness of his motives in his transactions respecting the girl and defended the action of Mrs. Jarrett in refusing to betray her confederate. Stead claimed that the revelations of the *Pall Mall Gazette* aroused the indignation of the public and enabled the attorney-general to secure the passage of the criminal law amendment bill so as to reach such cases as mentioned in the *Gazette*. Mr. Jacques, one of the defendants, here rose and exclaimed excitedly: "They now prosecute for it." Stead, turning towards Jacques, said, "Hush." Jacques, however, would not be quieted and repeated the expression. Justice Lopes then remarked to Mr. Jacques: "You are very indiscreet." Mr. Stead concluded his address by saying: "If the jury return a verdict of guilty I will not appeal this case, but will bear punishment imposed upon me by the court without flinching." Applause greeted this declaration.

STRUCK IT RICH.

Winnipeg *Free Press*: The great mineral possibilities of this country are shown by the fact that a copper mine, bought for a trifle by two Canadian gentlemen, was purchased by an Ohio capitalist a few days ago for thirteen thousand dollars. There are fortunes in the Rocky mountains and in the Lake Superior district.

THE PRINCE RUPERT

Spoken at Sea and Leaking Badly.

Working the Pumps--May put into 'Frisco.

SAN FRANCISCO, Nov. 5.—The whaling bark Atlantic, from the Arctic reports having spoken the British bark Prince Rupert, from Victoria, B. C., to London. The Rupert was leaking badly, and obliged to work the pumps every hour. The supposition here is that should matters grow worse, Captain Shaw, of the Rupert, would put in to this port.

[The Prince Rupert sailed from this port on the 22nd of October. When leaving the harbor she ran on Beaver Rock, and was towed into Esquimalt, where a survey was made. A diver also went down and examined her bottom, and reported that a portion of the false keel and some sheets of copper on the after part of the hull had been torn off. After this had been repaired she was pronounced seaworthy, and immediately proceeded to sea. The Prince Rupert was chartered by R. Ward & Co., of this city, and carries a large cargo.]

Since the foregoing was in type we learn that the Rupert's cargo was valued at $90,000, and that a private despatch has been received stating that she had been spoken with on the 3rd in 37.40, two north, 126 west; was then leaking badly, but that it was Capt. Shaw's intention to proceed on his voyage.

A CHINESE WIFE.

An Englishman's Mongolian Wife and Family Arrives To-day.

A new feature of the working of the Chinese Restriction Act was exemplified to-day, when an Englishman named Moore, with his Chinese wife and six Anglo-Chinese children, arrived on the Mexico. The Englishman arrived in San Francisco from China, but the authorities there refused the family permission to land and they were transferred to the Victoria steamer. On arriving here, they met with a similar reception and only secured a footing on British soil after the payment of $350, fifty dollars for each child and fifty for the mother. The children speak English fluently. The money was paid under protest, and the case being a very peculiar one, Mr. Hamley has telegraphed the particulars to Ottawa and awaits instructions. Mr. Moore expects to get his $350 which is all he had, returned to him. The question arises, "can the fifty dollar tax be imposed under the circumstances?" Mr. Moore is an Englishman. The law of England and of every civilized country, recognizes the oneness of husband and wife. And, again, if the father is a subject of Britain, can the children be classed among the proscribed race? The problem is one for the Ottawa authorities to solve, and an early reply is expected.

Associated Press Despatches to The Times.

THE TIMES OFFICE,
Victoria, 4.30 p. m., Nov. 5.

THE SCANDAL CASE.

LONDON, Nov. 5.—The Attorney-General to-day finished his address to the jury in the trial of the defendants in the Armstrong abduction case, and the court adjourned until Saturday. It is generally believed that the conviction of Stead, editor of the *Pall Mall Gazette*, Mr. Bramwell Booth, of the Salvation Army, and Mrs. Jarrett is certain.

THE TURKS ARE ANNOYED.

LONDON, Nov. 5.—A dispatch has been received here stating that the Bulgarian troops have been ordered to evacuate Isaribrod.

Advices from Constantinople say the Turks are greatly irritated because Mr. Lascelles, the English agent at Sofia, constantly accompanies Prince Alexander to and from Philippopolis. This action on the part of the British agent is supposed to indicate English approval of the Bulgarian union.

THE POPE'S DECISION.

ROME, Nov. 5.—Answers have been received at the Vatican to the Pope's communications to the German and Spanish governments on the Carolines question. The Pope's basis, with slight modifications, are accepted. The Pope's decision will now be drafted.

A SERIOUS AGITATION--FIRE.

MADRID, Nov. 5.—It is rumored here that serious agitation has broken out in Manilla against Capt. Gen. Ferrears, and that the latter has called out the troops to restore order.

The German consulate at Manilla has been destroyed by fire.

THE AUSTRIAN TROOPS.

VIENNA, Nov. 5.—Austrian troops are pouring from Trieste into the district of Bocchedi Callar.

REDUCED TO THE RANKS.

ST. PETERSBURG, Nov. 5.—The name of Prince Alexander, of Bulgaria, has been stricken from the Russian army list and the Prince has been deprived of his Colonelcy of the Russian Rifle Battallion, to which he was appointed by the Czar.

THE SAILOR PRINCE.

LONDON, Nov. 5.—The report that the Duke of Edinburgh will be appointed commander of the Mediterranean squadron is confirmed.

THE MONETARY CONFERENCE.

PARIS, Nov. 5.—The monetary conference has closed. All the powers represented, except Belgium, having arrived at an arrangement.

THE INDIAN ARMY.

ROME, Nov. 5.—In accordance with a request of the English government, Italy will send two officers to witness the manœuvres of the Indian army in the Shore districts, British India.

NEW APPOINTMENTS--FOUND DEAD.

WASHINGTON, Nov. 5.—The President this p. m. appointed Dorman B. Eaton, member of the Civil Service Commission, in the place of Thoman, whose resignation was accepted to take place Nov. 1st. The appointment is but temporary, however, as it is proposed to appoint a permanent successor to Judge Thoman in a short time. Eaton consented to serve on the commission for a few weeks, in order to assist the newly appointed Commissioners in familiarizing themselves with their duties, and also to close up certain unfinished matters in which he is greatly interested. It is not known who will succeed Eaton, beyond the fact that the new appointee will be in full sympathy with civil service reform. The President has appointed E. L. Carson, of Texas, Indian Agent at Ouray, Utah, and Needles, California.

E. W. Hackett, from Sitka, Alaska, was found dead near here this morning. He was on his way to Iowa, and from the appearance of his body it is supposed he fell from the train and was instantly killed.

TROUBLE OVER JIM RENWICK.

NEW YORK, Nov. 5.—Levi Knott, a horse breeder of Oregon, is trying to replevy the racer Jim Renwick. He says he brought the horse from California last fall and won with it in the Jerome Park, Monmouth Park, Saratoga and Sheepshead Bay races. After this he left it in charge of G. R. Buchanan, the trainer at Jerome Park. Knott alleges that Buchanan entered the horse in his own name this season, and won many races with him, and that he has failed to render an account. Knott gave bonds in $4000 in his suit yesterday in the Brooklyn Supreme Court. Jim Renwick is in possession of the Deputy Sheriff.

DEPUTY COLLECTOR FOR SAN FRANCISCO.

SAN FRANCISCO, Nov. 5.—It is currently reported that John T. Fogarty, formerly license collector for this city, will shortly succeed Mr. Jerome, as deputy collector at this port.

MUST PRESERVE THE PEACE.

Governor Squire, of Washington Territory, has issued a proclamation relative to the Chinese trouble at Seattle and elsewhere throughout the Territory. Reference is made to the forcible removal of the Chinese in Tacoma, and the threatened danger reported by the Mayor of Seattle. The Governor warns all citizens against participating in any uprising or act of violence against the Chinese. He appeals to all Sheriffs and law-abiding citizens to assist in preserving the peace, and arraying themselves on the side of law and order. He concludes by saying that this is the time in the history of the Territory for an intelligent, law-abiding and prosperous community, who love their country and their homes, who are blessed with boundless resources of forest, field and mine, who aspire to soon become a great and self-governing State, to assert their power of self-control and self-preservation as against a spirit of lawlessness, which is destructive alike to immigration, to labor and to capital. If you do not protect yourselves you have only to look to the next step beyond, which is simply the fate of Wyoming, and the speedy interference of United States troops.

It is reported in Ottawa that a large number of Conservative members have protested against the appointment of Mr. McLellan as Finance Minister, and that as a consequence Mr. Bowell is to have charge of the Finance Department for the present.

WOULD BE DOOMED TO EXILE.

The Montreal *Gazette*, in consequence of the recent disturbances in Wyoming and Washington Territory discusses the Chinese problem in an intelligent manner. There was a time, says our contemporary, when in California and, indeed, the entire west of the United States, the Chinaman, so far from being an object of aversion to excited and often murderous men, was welcomed as an opportune helper in the various work of civilization. But those halcyon days for the thrifty Mongolian have long passed away and now, wherever he proffers his cheap labor, he is greeted with the frowns of jealous rivals and, in some instances, menaced with ill usage or even death if he refuses to solve the problem by a voluntary exodus. In British Columbia the Chinese question has been passing through a like series of stages from glad utilization of welcome aid to the shutting of inhospitable doors in the oblique-eyed stranger's face. Happily as yet there has been no "massacre of Wyoming" or anything approaching to it, and it is sincerely to be hoped that any such issue of the struggle of race will be averted by good sense, humanity and obedience to just laws.

In the east, however, where the rare Mongolian laundryman has as yet been an insignificant ingredient in the mass of our population, we are hardly in a position to judge of the grievances of which our fellow-citizens of the Pacific province complain. It is very easy for us to advise patience and forbearance, to talk of equal rights, a free country and indiscriminate immigration, because the inconveniences of the Chinese inflow have not yet come home to us. Wise and just though we may be in our own conceit, we have not yet been subjected to the only test that would justify us in offering counsel to British Columbia. Advice, at any rate, is a cheap article and calls for small self-sacrifice. It is true that the government at Ottawa appointed a commission to investigate the whole question, and there was no reason to find fault with any lack of thoroughness in its performance of the task entrusted to it. The report is a very *embarras de richesse*, from which who so examines perseveringly may select any theory that suits him. In the main we gather from it that the Chinese are a very ancient race, devoted to an ancient literature, swayed in their conduct by an ancient morality and naturally actuated by an exceptional veneration for ancestors who conferred so many boons on them. Practically, they seem to be good and bad like other nations. The higher classes are educated (in their way), courteous and fair in their dealings, and on the whole, prejudices of race apart, as intelligent as occidentals. The lower classes seem to be pretty much the same as lower classes everywhere, but more generally industrious, and able to live on what to English laborers would be a mere pittance. * * * That is the real trouble. Not "loose fish," but respectable men, with respectable families to support, honest, decent, law-abiding—these are the people, who suffer by the competition. It may be bigoted and unreasonable for those John Bulls to look with unkindly eyes on the other Johns from the far east who can live and prosper on what would be starvation to themselves. But if we only draw sufficiently on our imagination to put ourselves for a moment in their places, we may be disposed to excuse them. Manifestly, density has no function; so do workmen the ratter, and the Chinese are all ratters, deliberately so. It is the key of their success. That is the real point of dispute; all moral diatribes are out of place. With free ingress and unrestrained employment of Chinese, British workmen would be doomed to hunger or exile. And, however we may desire to see the Chinese fairly treated, we can hardly wonder that those whom they would oust from workshop and factory should object to such a fate.

A SYNDICATE of Brooklyn capitalists proposes to build a rapid transit road from the city hall to the bridge entrance, to cost $1,500,000.

HON. MR. BLAKE.

The Toronto *Globe* referring to the reported resignation of Mr. BLAKE as leader of the Liberal party, denied the rumor, and in doing so stated that "it is true, we believe, that Mr. BLAKE has undertaken to argue three very important cases before the Judicial Committee, and when the *Mail* says that his fees in these cases would be ten thousand dollars, it probably does not overstate the amount. So much, no doubt, he felt he could do without overtaxing his strength and retarding his complete recovery. There can be no doubt that if Mr. BLAKE chose to remain in England and be called to the English Bar he would immediately take a foremost position there, as Mr. BENJAMIN, the eminent Southerner, did, and would make a much larger income than the high income which he made in Canada, and which he sacrificed that he might the better discharge his duties as leader of the Opposition. Did he choose to enter the British Parliament he would at once take rank with the foremost and the ablest statesmen in that Assembly. At the English Bar he would have few equals. In the British House of Commons he would find no superior. In character and in ability Mr. BLAKE is the peer of any man in any free Parliament in the world.

The Toronto *Mail* pays the talented gentleman the following compliment: "Aside from professional considerations, Mr. BLAKE's health, never robust, has been seriously affected, we believe, by his close attention to politics and Parliament. He and *The Mail* differ as the poles in public affairs, but that shall not hinder us from saying that no man in Canadian public life, past or present, has devoted higher talents of a certain order to the public service, or exhibited a greater zeal or thoroughness in the discharge of the multifarious duties of a political leader and parliamentarian than Mr. BLAKE. In fact, he has undertaken far too much, and that he should now have been called upon to pay the penalty for overstraining nature is not a matter for surprise. His physicians have strongly advised him, it is said, to abandon politics, and if this be the case, there is nothing more to be said than to express the sincere hope that he may soon recover the strength which he has squandered so lavishly in the interest, as he believed, of his native land."

NOTES AND COMMENTS.

THE output of coal at Spring Hill, N. S., last week was 330,000 tons, the largest on record in Nova Scotia. Over 800 hands are employed in these mines.

No further Arctic expeditions will be recommended to Congress. Both the Secretary of War and the Secretary of the Navy are opposed to further risks in that connection.

THE steamer Caledonia, sailing from Halifax for London, took about fifty barrels of Canadian apples to be placed in the Colonial and Indian Exhibition.

DEPEND upon it, he is not elevating Reformers to the Bench, and stowing them away in the Senate and buying up Antigonish and St. John and East Durham for a trifle. A crisis is at hand, and when it culminates, as soon as it will, he must show his hand.

THE modern crusade against vice in London has brought forth examples of self-denial which rival the patriotism of the Roman ladies who devoted the proceeds from the sale of their jewels to a national defence fund. "An Irishwoman" with a generous impulse writes to the chief director of the *Pall Mall Gazette* fund: "I wish I had money to give you for your new crusade, but alas! I have none to send. I offer you instead some trinkets that were given me as wedding presents. Would not some one buy them and so help your great work? God will bless you for what you are doing." Who will deny that this poor woman does not make a sacrifice greater than that of the wealthy lady who bestows hundreds or even thousands of pounds upon the same cause?

THE *Canadian Gazette*, of London, Eng., says: It is to be regretted that this year, as on several similar occasions, Canada was very inadequately represented at the Dairy Show. In the cheese section, where an excellent exhibit might certainly have been made, the Dominion was totally unrepresented in the classes for foreign makers and factors. In class 53, however, Messrs. HINTON and WHITE showed some "white Canadian" from St. Paul's factory. In the bacon classes, again, we notice no direct representation of Canadian varieties, and of butter the same remark is true. This annual show of the British Dairy Farmers' Association is grown so rapidly in importance and value that it is impossible not to think that Canadian dairy interests would be benefited by a larger representation in it.

THERE is a momentary pause in the political agitation, a flash of silence amid the clash of angry combatants. Mr. GLADSTONE's manifesto has been discussed in the press and on the platform, and the MARQUIS of SALISBURY's *pronunciamento* has been given to the public, and after the roar of the leaders the cackle of their followers attracts but little attention. This apathy may continue for a fortnight, when the Premier will make an address at the Mansion house banquet, and over the Lord Mayor's wine will give to the country all that he desires the country should know of Cabinet Council deliberations. Mr. GLADSTONE will immediately follow the Marquis with two or three campaign speeches in Scotland. These orations will revive the flagging interest and thence forward to the end the campaign is expected to be intensely lively and exciting.

A Safeguard.

The fatal rapidity with which slight Colds and Coughs frequently develop into the gravest maladies of the throat and lungs, is a consideration which should impel every prudent person to keep at hand, as a household remedy, a bottle of AYER'S CHERRY PECTORAL.

Nothing else gives such immediate relief and works so sure a cure in all affections of this class. That eminent physician, Prof. F. Sweetzer, of the Maine Medical School, Brunswick, Me., says:—

"Medical science has produced no other anodyne expectorant so good as AYER'S CHERRY PECTORAL. It is invaluable for diseases of the throat and lungs."

The same opinion is expressed by the well-known Dr. L. J. Addison, of Chicago, Ill., who says:—

"I have never found, in thirty-five years of continuous study and practice of medicine, any preparation of so great value as AYER'S CHERRY PECTORAL for diseases of the throat and lungs. It not only heals up colds and cures severe coughs, but is more effectual than anything else in relieving even the most serious bronchial and pulmonary affections."

AYER'S

Cherry Pectoral

is not a new claimant for popular confidence, but a medicine which is today saving the lives of the third generation who have come into being since it was first offered to the public.

There is not a household in which this invaluable remedy has once been introduced where its use has ever been abandoned, and there is not a person who has ever given it a proper trial for any throat or lung disease susceptible of cure, who has not been made well by it.

AYER'S CHERRY PECTORAL has, in numberless instances, cured obstinate cases of chronic **Bronchitis, Laryngitis,** and even acute **Pneumonia,** and has saved many patients in the earlier stages of **Pulmonary Consumption.** It is a medicine that only requires to be taken in small doses, is pleasant to the taste, and is needed in every house where there are children, as there is nothing so good as AYER'S CHERRY PECTORAL for treatment of **Croup** and **Whooping Cough.**

These are all plain facts, which can be verified by anybody, and should be remembered by everybody.

A BY-LAW

For raising the sum of $16,000 to provide for and improve the Public Lighting of the City of Victoria.

WHEREAS the present Public Lighting of the City of Victoria is insufficient, and inexpedient and necessary to extend and improve the same, and for that purpose to raise by way of loan, upon the credit of the said city the sum of $16,000.

And whereas it will require the sum of $1,28 to be raised annually by special rate for the payment of the debt intended to be hereby created and the interest thereon.

And whereas the amount of the whole rateable property of the said city, according to the last revised assessment roll, is $5,000,000.

And whereas it will require an annual special rate of 1-32 of one cent in the dollar for paying the interest and creating a equal yearly sinking fund for paying the principal of the said intended debt according to the Municipality Act 1881.

Be it therefore enacted by the Council of the Corporation of the City of Victoria as follows:

1. It shall be lawful for the Mayor of the said city to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same upon the credit of the debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of $16,000, and to cause the same to be paid into the hands of the Treasurer of the said City for the purpose and with the object hereinbefore recited.

2. It shall be lawful for the said Mayor to cause any number of debentures to be made for such sums of money as may be required, either in currency or sterling money, not less than $100 each, and all such debentures shall be sealed with the seal of the said Corporation and signed by the said Mayor.

3. The said debentures shall be made payable in twenty years from the day hereinafter mentioned for this By-Law to take effect, at the office of the Treasurer, City Hall, Victoria, in the Province of British Columbia, and shall have attached to them coupons for the payment of interest.

4. The said debentures shall bear interest at and after the rate of 6 per centum per annum from the date thereof, which interest shall be payable half-yearly at the office of the said Treasurer.

5. For the purpose of forming a sinking fund for the payment of the said debentures and interest thereon at the rate aforesaid, an equal special rate of 1-32 of one cent in the dollar shall, in addition to all other rates, be assessed, raised, levied and collected in each year upon all rateable property within the said city of Victoria during the said term of twenty years from the coming into effect of this By-Law, unless such debentures shall be sooner paid.

6. It shall be lawful for the said Corporation from time to time to repurchase any of the said debentures at such price or prices as shall in each case be mutually agreed, and all debentures so repurchased shall be forthwith cancelled, and no release of debentures or of any debenture shall be made in consequence of such repurchase.

7. This By-Law shall, before its final passing thereof, receive the assent of the electors of the said Corporation in the manner provided by the Municipality Act 1881, and shall take effect on from and after the day of the final passing thereof.

8. This By-Law may be cited for all purposes as the Public Lighting By-Law, 1885.

Passed the Municipal Council the 16th day of September, A. D. 1885.

Received the assent of the Ratepayers the 29th day of September, A. D. 1885.

A BYLAW

For Raising the Sum of $5000 to Obtain Plans and Specifications for the Drainage of the City of Victoria.

WHEREAS IT IS EXPEDIENT AND NECESSARY to provide a complete and permanent system of Drainage for the City of Victoria, and before commencing the construction thereof to obtain plans and specifications for such a system upon the best sanitary and scientific principles.

And whereas for the purpose of obtaining such plans and specifications by public competition, it is expedient and necessary to raise by way of loan upon the credit of the said City the sum of $5000.

And whereas it will require the sum of $168 to be raised annually by special rate for the payment of the debt intended to be hereby created and the interest thereon.

And whereas the amount of the whole rateable property of the said City, according to the last revised assessment roll, is $5,000,000.

And whereas it will require a annual special rate of 1-100 of a cent in the dollar for paying the interest and creating a yearly sinking fund for paying the principal of the said intended debt according to the Municipality Act, 1881.

Be it therefore enacted by the Council of the Corporation of the City of Victoria as follows:—

1. It shall be lawful for the Mayor of the said City to raise by way of loan, from any person or persons, body or bodies corporate who may be willing to advance the same upon the credit of the debentures hereinafter mentioned a sum of money not exceeding in the whole the sum of $5000, and to cause the same to be paid into the hands of the Treasurer of the said City for the purpose and with the object hereinbefore recited.

It shall be lawful for the said Mayor to cause any number of debentures to be made for such sums of money as may be required either in currency or sterling money not less than $100 each and all such debentures shall be sealed with the seal of the said Corporation and signed by the said Mayor.

3. The said debentures shall be made payable in twenty years, from the day hereinafter mentioned, for this Bylaw to take effect, at the office of the Treasurer, City Hall, Victoria, in the Province of British Columbia, and shall have attached to them coupons for the payment of interest.

4. The said debentures shall bear interest at and after the rate of six per centum per annum from the date thereof, which interest shall be payable half-yearly at the office of the said Treasurer.

5. For the purpose of forming a sinking fund for the payment of the said debentures, and interest thereon, at the rate aforesaid, an equal special rate of 1-100 of one cent in the dollar shall in addition to all other rates be assessed, raised, levied and collected in each year upon all rateable property within the said City of Victoria during the said term of twenty years from the coming into effect of this Bylaw, unless such debentures shall be sooner paid.

6. It shall be lawful for the said Corporation from time to time to repurchase any of the said debentures at such price, or prices, as shall in each case be mutually agreed, and all debentures so re-purchased shall be forthwith cancelled, and no release of debentures shall be made in consequence of such re-purchase.

8. This Bylaw shall, before final passing thereof, receive the assent of the electors of the said Corporation in the manner provided by the Municipality Act, 1881, and shall take effect on from and after the day of the final passing thereof.

9. This Bylaw may be cited for all purposes as the Drainage Bylaw, 1885.

Passed the Municipal Council the 16th day of September, A. D. 1885.

Received the assent of the Ratepayers the 29th day of September, 1885.

CREDIT AT THE RESTAURANT.

Advantage of a Respectable Appearance When Without a Pocketbook.

[Brooklyn Eagle "Gossip."]

It is not a difficult matter to get credit in New York, if a man is presentable and does not carry a hangdog and suspicious air about him he will have little difficulty in making his way about town without money. Men who pay their bills are abnormally sensitive about running into debt in what might be called a public way.

A friend of mine, who is not known in town at all, and who is, in fact, just back from an extended residence in the south, found himself in a pretentious and handsome restaurant a few nights ago, after the theatre, with a party of ladies, and also without any money. This was not a cheerful combination, but he ordered the supper — ordered it lavishly — and when the waiter presented a check threw out a card and was about to write an order on it, when the waiter shook his head rapidly and told the man quietly that it was all right, and that he could step in whenever he chose and pay the bill.

"I never was so much relieved in my life," the festive supper-giver said afterward, "and the relief was so great when the waiter assured me of his trust in my honesty that I felt like making him a present of my watch. I had worried through two solemn hours while my friends were eating and drinking and chatting with the vivacity of ladies who have been away from city life for several years, and I was afraid to let my wife know of my position for fear of worrying her. I turned over all sorts of schemes, such as sending notes to my friends for money, writing out checks, absenting myself from the party and raising the wind from some friend in the vicinity, and of making personal appeals to the proprietor. Somehow it never occurred to me that I looked respectable, and that there was no particular reason why I should be thrown into the street because I happened to have left my purse at home. I have now such thorough belief in my ability to get through without money that I believe I would make a confidence operator of national reputation if I turned my attention to that sort of thing."

Very often men who go about a good deal find themselves short of funds, but few of them have any difficulty in pulling themselves together if they happen to be a bit known. Many a man is called upon on the following day by a hackman, and the number of restaurant cashiers down town who have trusted their patrons for luncheons is very large. Bartenders often turn out to be very good friends, indeed, to men who find themselves unexpectedly without funds. If a man—always supposing him to be respectable and more or less agreeable—drinks at a bar a few times and picks up a nodding acquaintance with the bartender, he will find that functionary will come to his relief when many more solid and dignified citizens will not. But then, perhaps, bartenders and restaurant waiters see the best part of human nature—or is it the worst?

The Nut of the Pulpit.

[American Machinist.]

Iron cut nails are fast going out of fashion, steel cut nails are driving them out. Wire nails are coming into use with great rapidity, and the designing of machinery for making them is taking the inventive ability of many good mechanics. It is the opinion of some who have carefully studied the mechanical and metallurgical progress that steel wire nails are destined to come into common use in the near future.

Old Bessemer rails will come upon the market in large quantities before many months have passed, because they are wearing out faster than was thought possible in the earlier days of steel tracks. Mr. Masters has shown that they can be melted in an ordinary cupola and molded into good castings, but it is believed that they can be utilized with more profit by drawing them into wire. Old steel rails can be readily worked into wire of good quality, suitable for nails. A mill has been erected in Syracuse for making wire from old rails, but it has not gone into operation. How fast steel wire nails will come into use depends largely upon how fast old steel rails are thrown upon the market.

Cheap Currency.

[Chicago Herald.]

In the early days of the war of rebellion Nathaniel Imball, of York county, Pennsylvania, a brick manufacturer, contracted a debt of 50 cents. To pay it he produced from his pocket a varnished brick, inscribed "Good for 25 cents—Nathaniel Imball," and a pumpkin seed, marked "Good for 5 cents—N. Imball." The currency was accepted. The brick is still in existence and Imball is ready to redeem it, but the present owner, who paid $1.25 for it, will not sell it.

Millions in Timber Culture.

[Exchange.]

As long as land-owners look at the question of forest preservation or tree-planting as one of charity for posterity, the great majority of them will go on cutting down their trees indiscriminately and refusing to plant. Discussion on this subject is now, writes a correspondent, taking a new direction. The scientist is able to show that larger returns may be secured by judicious timber culture than by gold mining or even wheat growing, save in exceptional localities.

Novel Case of Assault.

[Boston Post.]

We have heard of a man being assaulted with almost every conceivable weapon, from a lighted lamp to a brickbat, and we even recall an old song in which the singer was wont to threaten to strike his audience with a feather or to stab them with a rose, but it remained for a Cambridge young man to be fined for assaulting a lady with a sunbeam reflected from a mirror held in his hands.

The Fan Nuisance in Church.

[Cor. Christian Register.]

Ladies, why will you, why must you, fan, fan, fan? Through the Scripture reading, through the singing, through the sermon, goes on the incessant swinging of the fan. Do you not know that, as commonly used, three-fourths of all the power of the fan is expended upon the head, neck and shoulders of the sitter in the pew in front of you?"

An Oriental Tribute.

[New Orleans Times-Democrat.]

So many Oriental proverbs to the detriment of women are being constantly revived that it is only just a very beautiful tribute to the sex, also Oriental, should be more popularized—they say: "What is better than gold?" "Jasper." "And what is better than jasper?" "Woman." "And what is better than woman?" "Nothing!"

The Princess' Wedding Cake.

The wedding cake to be seen at the marriage of the Princess Beatrice will weigh 9 pounds, and will rest on a pedestal [illegible]

A Drunken Man's Dilemma.

[Harper's Bazar.]

CITY AND PROVINCE.

—The Olympian brought 330 sheep for Van Volkenburgh & Co.

—The bridge on St. Lawrence street will be closed for repairs to-morrow.

—Before purchasing Real Estate or insuring your life, see Rand Bros.

—Mrs. Whitlaw, milliner, Fort street, is now prepared to cater to the ladies' tastes, all styles of fashionable millinery, etc.

—The Mexico brought 355 tons of freight for Victoria and 438 tons for Alaska. The latter will be transferred to the Idaho, which leaves for the north in a day or two.

—Given away three times every day; the best two-bit meal in town, at the C. P. R. Dining Hall, corner Douglas and Johnson streets, up stairs. No Chinese whatever employed.

—The Olympian brought freight for: E A Babbitt, W Hamilton, Jas Fisher, Van Volkenburg, A Ofner, E B Marvin, A Bossi & Co, J W Draper, H Saunders, McDonald Bros, W Prothero, D E Campbell, Muirhead & Carter, R Baker & Son, Peter Wilson.

—Mr. David Oppenheimer is preparing a cabinet of B.C. minerals for the forthcoming London exhibition. Specimens weighing not over two pounds, will be carried by the B. C. Express Company free, and parties having them should assist in the praiseworthy object by forwarding them to Mr. Oppenheimer.

—The annual meeting of the Victoria St. Andrew's and Caledonia Society, for the election of officers and the transaction of general business, will take place to-morrow evening in the society's hall, corner of Langley and Fort streets. A full attendance of members is requested.

—The *Colonist* rises to remark: "Certain gentlemen * * are already more bland of demeanor and acquiring a greater power of personal recognition intended gradually to lead up to something else. There is nothing like an early beginning." The writer should be the best judge of his own conduct. The public, however, scarcely expected him to direct attention to the subject.

The Olympian to-day brought the following passengers: C Kennedy, S F Boyd, J Clark, N Normandie, J Hammond, F Robinson, G Emerson, J Glassey, C F Dolan, T Lloyd, D Kellog, F L Richmond, W K Lear, Miss H Smith, Mrs DeLeon and two children, A McPherson, J R James, W Howe, Miss Reitel, J G Magnus, J Gilroy, J Powers, A McKinnon, B F Wells, A Andrews, C F Bulfinch, C Spulm.

A CHINESE EXCITEMENT.

In a prominent Chinese house on Government street near Cormorant, to-day was caused quite a commotion, the cause of which was a pane of glass being accidentally broken by a colored man, named Bill Brown. The Celestials demanded $2 recompense for the damage done, which Brown refused to pay, and as he started off they made a break for him, and three of the firm bodily carried him into the store with the intention of holding him till the police arrived, who were summoned by the vigorous blowing of whistles. A reporter being present induced Brown to pay the $2 which he did and departed unmolested. No less than 500 Chinese congregated in that short time, jabbering all at once like so many geese.

HARD ON TACOMA.

The *Oregonian* of the 4th says: The Chinese have been driven out of Tacoma by methods that would disgrace barbarians. The act is a crime against civilization and mankind, on a level with the expulsion of the Jews and Moors from Spain and the Huguenots from France. Such a thing would not be possible in any community governed by the principles of justice and civilization. It is characteristic of a mushroom railroad town.

CLOSING SALOONS.

The Retail Liquor License By-law was passed last night by the City Council. This is the by-law introduced by Councillor McKillican, its provisions extending to bar-rooms, which are required to be closed at 12 o'clock every night and between 10 and 5 on Sundays. The new law which goes into effect at once, will be found to work satisfactorily, if vigorously enforced.

ALWAYS ON TIME.

The little steamer Teaser arrived today, on time as usual, with the following passengers and fifteen tons of freight: Amos Bowman, James Macevoy, James Gray, John Bong, Wm Collins, T Howard, Goodman, J Hogan, J Day, Kitchun, Armstrong, Stewart, Dan Quigley, John Quigley, H Balshall.

A RARE OPPORTUNITY.

Dr. Clark who has been representing Dr. Mintie, the eminent specialist of San Francisco, has returned to the city and can be consulted at his rooms at the Queen's Hotel.

THE PROCTOR CASE.

Richard A. Proctor was again brought before the magistrate this afternoon. He was remanded till Monday when they expect some evidence from the north.

METROPOLITAN WARD.

A Line of Street Omnibuses Established by the Victoria Transfer Company.

They Begin to Run Next Monday—Full Particulars of Routes.

The Victoria Transfer Company announce in another column that on and after Monday next they will place omnibuses to ply regularly on the principal streets of the city. One 'bus will run every hour, commencing at eight a. m. from the junction of Government and Douglas streets, at the new fountain, along Douglas, down Johnston to Government, along Government street, across James Bay Bridge, and thence to the outside wharf, via Dallas Road, Menzies and Quebec streets; returning by the same route at the half hour. The other "bus" will ply every hour between the head of Fort street (at its junction with Yates) and Point Ellice, near the second bridge on the Esquimalt road, via Fort, Government, Johnson and Store streets. It is the intention of the company to observe great regularity in these trips and run strictly on time, from seven o'clock in the morning until nine o clock at night. Should traffic war act, it time may be extended until midnight. Single fare will be ten cents, or twelve tickets can be purchased for a dollar, making the fare virtually 8 cents. The buses will be kept scrupulously neat and clean, so that ladies may safely use them in the afternoons. No smoking will be allowed inside. We understand that this is a precursor on the part of the company to a street car line, and will undoubtedly prove a great boon to the public who should encourage the enterprise by a liberal patronage. For time table we refer our readers to the advertisement in another column.

THE DRY DOCK

Must be Lengthened to Accommodate Vessels in the Oriental Trade.

The announcement made that a line of steamers is to be put on the route from this province to China and Japan, renders the enlargement of the Esquimalt dry dock, an imperative undertaking on the part of the Dominion government and the Imperial authorities. It is certain that the vessels to be run in connection with the Canadian Pacific will be of modern construction and design, especially adapted for the Pacific trade. The grey hounds that now plough the Atlantic are all over 500 feet in length. The Circassian, of the Allan line, plying between Montreal and Liverpool, is 500 feet long, her twin sister, the Parisian, being 510 feet long. The present is the time for undertaking the enlargement of the dock. All the appliances wherewith to execute the work are on hand. If not attended to now the government will certainly commit a grave blunder which it will regret for all time to come. The importance of the traffic certain to spring up between this portion of the Dominion and the countries of the south Pacific unloubtedly demands encouragement at the hands of the government, and we are certain that if the matter is properly represented to Sir Hector Langevin and the government by our city and province representatives that their appeals will be considered and the effort not made in vain. Their hands should be strengthened by the united action of the Board of Trade, the merchants and shippers, as well as the business men of the city generally.

THE SCHOOL ELECTION.

The Circumlocution Office over in James Bay has not yet reported on the late school election, on which Superintendent of Education Pope held a sort of jug-handled inquisition. In justice to the complainant in the case; and to the citizens who believe that the election should be declared null and void, be cause of the illegal voting that was winked at by government servants, the Minister of Education should at least condescend to publish the decision arrived at. No person will give him credit for the possession of sufficient moral courage to do what is right in the matter, if the right would conflict with self-interest; but prolonged silence will lead even his admirers to think that he has forgotten the art of doing wrong for party advantage. The man who is too cowardly to act honestly and, too weak to do the contrary, has no business to be in political life.

A BOLD BID FOR THE PROTECTIONIST VOTE.

Lord Salisbury in his speech at Victoria Hall, London, on Wednesday night, denied that the Tories wished to tax cereals, but said free trade should not prevent an arrangement of duties in order to place England on an equal footing with other nations. To take an hypothetical case, he said if Spain refused to admit English manufactures, but admitted those of other countries, the raising of the duties on Spanish wines by England would not be an infringement of free trade principles, but would be justified. However, he would prevent England be prevented from altering her tariff in order to benefit her colonies. The speech is considered a bold bid for the protectionist vote.

AN UNTIMELY DEATH.

Mr. James Dowdall, a clever young barrister of Almonte, Ont., died on the 27th ult., from typhoid fever. Mr. Dowdall was conspicuous in eastern Ontario as an exponent of Irish thought and sentiment, and took a leading position in advocacy of the policy of the Liberal party. He was a Canadian by birth, having been born and educated in Almonte. By indomitable energy and perseverance, and with the assistance of more than ordinary natural abilities, he rose from a lowly though respectable position to be one of the most influential citizens of his native town, and that too before he was thirty years of age. Had he lived he would undoubtedly have been one of the leading political speakers in the Dominion.

FIFTH OF NOVEMBER.

Anniversary of the Gunpowder Plot and the Battle of Inkerman.

This day, November 5th, marks the anniversary of some important events in English history—the discovery of the gunpowder plot and the inauguration of the revolution of 1688, by the landing of William III. in Torbay, and the famous victory gained by the Allied forces over the Russians at Inkerman during the Crimean war in 1854. The originator of the Gunpowder Plot was Robert Catesby, who was originally a Roman Catholic, then a Protestant and again a Roman Catholic. He resolved on destroying at one blow, the King, James I., the Lords and the Commons. His intentions were communicated to Thomas Winter, a Catholic gentleman of Worcestershire, who induced the co-operation of others, amongst whom was the celebrated Guido, or Guy Fawkes—a gentleman of good family, but actuated by a spirit of ferocious fanaticism. Other confederates were drawn into the plot, namely, Bates, Wright, J. Wright, Percy and R. Winter. Oaths of secrecy were administered to the conspirators by Father Gerard, who, however, it is stated, was kept in utter ignorance of the plot. In the spring of 1604 it was resolved to carry a mine through the wall of a house hired by Thomas Percy, not far from where the parliament assembled. The conspirators found that they had undertaken a task beyond their power. Fawkes discovered that a coal dealer had vacated a cellar below the House of Lords. The cellar was hired from the coal merchant and the mine abandoned. Thirty-six barrels of gunpowder were deposited in this vault. Boulders, bars of iron and rubbish generally was thrown in to increase the destructive effects of the explosion. The preparations were concluded in May, 1605, but the final blow was not decided upon till the 3rd of October, the day on which it was intended the legislature should assemble; but that event was postponed till the 5th of November.

EXTENSIVE PREPARATIONS

had been made during the previous summer for carrying the design into execution. Prince Charles was to be the successor of King James. The Princess Elizabeth was to be seized and carried off to a place of security. Guy Fawkes was to ignite a slow match and after the explosion he was to escape to Flanders by a vessel waiting ready to sail the moment he embarked. On the 26th of October an anonymous letter was received by Lord Mountteagle, a Roman Catholic nobleman, and brother-in-law to one of the conspirators. The letter, which was in the shape of an enigma, was deciphered by the King. It was a mysterious document, and the King called to his aid the wise counsel of his Ministers. On the afternoon of October 4, Lord Mountteagle visited the cellar under the House of Lords and there discovered in a corner Guy Fawkes, who claimed to be a servant of Mr. Percey the tenant of the coal vault, and who was determined to carry out the plot. At an early hour on the morning of the 5th a party of soldiers, under the command of Sir Thomas Knevet visited the cellar, seized Fawkes at the door. He was imprisoned. His aids in the conspiracy hearing of this, fled in different directions; but they were arrested, tried and condemned. They were executed on the 30th and 31st of January following in St. Paul's churchyard.

The combustibles were discovered and carefully removed. Guy Fawkes' Day has been celebrated ever since in many of the Protestant countries. It is a day that is not likely to pass into oblivion. At one time it was an important day in London, but it has ceased to be celebrated with the pomp that it once was. Yet unto this day the burning of the effigy of Guy Fawkes is observed with great sacredness.

THE CLOSING SCENES.

Consummation of Long Deferred Hopes and Expectations.

The closing days of the present week are the most important epoch in the history of Canada since confederation. Ere another week begins, the great transcontinental railway, resting its two ends on the Atlantic and Pacific oceans, and welding in one compact whole the magnificent chain of states from Halifax to Victoria, will be an accomplished fact, and the hopes and expectations of our country, now throbbing with fresh national life, will begin to be realized.

Yesterday at noon the telegraph lines met in the mountains near the ends of the track, and were tied together. Communication was at once established with the east, and Mr. Van Horne, then at Farwell, transmitted messages to Winnipeg and Montreal. Until the opening of the railroad for traffic, in the spring or next summer, the wire will only be used for the company's business. The establishing of communication through to Canadian territory is a guarantee that the days of exorbitant charges and the regular "irregularities" of the service will be forever at an end.

At six o'clock last night it was reported that there were less than five miles of track to lay, and that work would be continued all night by the electric light. It was expected that the connection would have been made to-day, but this was found impossible. The latest information is to the effect that the great event will be celebrated to-morrow, only a few of the officials of the road, contractors and the workingmen participating in the ceremony.

Mr. Van Horne, now at the end of the track, will leave immediately after the last spike is driven home, for Port Moody and the Inlet. The Princess Louise will leave here to-morrow evening for Burrard Inlet, and bring Mr. Van Horne and party to Victoria on Saturday.

The survey of the New Westminster branch has been finished. Speculation is rife as to the probable location of the depot, the general belief being that it will be in the neighborhood of the planing mill, on the west side of the city. The people are naturally very sanguine that the advent of the locomotive will give a great impetus to the business of the city. "Would it surprise you to find," remarked one to-day, "that New Westminster will be the place to boom, and that it will be the real terminus of the road?"

The very latest information from the interior, received just before going to press, conveys the intelligence that "ere to-morrow's sun sinks in the west the last rail will be laid, the last spike driven and the greatest feat of the age will have been accomplished."

THE MASTER OF BLANTYRE.

The above nobleman, Hon. Walter Stuart, eldest son of Lord Blantyre, Sutherlandshire, Scotland, is a guest at the Driard. He arrived in the city on Tuesday last, by the Olympian from the Sound. He is master of Blantyre, and nephew to the Duke of Sutherland, one of the wealthiest noblemen in Britain. The distinguished gentleman is accompanied by his piper, Mr. Matthew McKay, who carries with him his pipes and a double set of Highland costumes, the Royal and the Hunting Stuart tartans. Since leaving New York they have visited the Western States, Kansas, Mexico, Colorado and California. It is the Master of Blantyre's intention to visit several sections of this province in quest of game. He came prepared to do a good season's hunting, and his wish can be gratified in this respect if he visits the right localities. It is his intention to leave for Comox and the north to-morrow morning.

LETTERS TO THE EDITOR.

SEVEN OFFICERS AND ONE PRIVATE.

To THE EDITOR OF THE TIMES:

SIR,—An honest letter appears in the *Colonist* this morning evidently not written by the editor. The communication in question signed "Taxpayer" should be read by every right thinking person in our city, as it contains more solid truth and honesty of purpose than the *Colonist* has had within its borders for the past six months. I not only agree with what Taxpayer states referring to the Provincial government opening their eyes, and his questioning the general efficiency of the officers connected with the Victoria prison, but I would also demand that the Provincial government promote those officers that are in their employment, who are industrious and sober, and not the inefficient political tricksters, that are, as a rule, given the highest positions by the James Bay quartette. The whole machinery of our present bunglers is on the principle of seven officers and one private.

A FIFTY EIGHTER.

THE DEATH IN THE GAOL.

Some Further Particulars About T. A. Mead who Died in the Gaol

Some further particulars of the man T. A. Mead, who died in the gaol on Monday morning, has been learned. About a week ago deceased went to the Royal Hospital and asked for admittance saying that he was unwell and suffering from extreme pain. He had no order for admittance, but Mr. Jamieson, taking compassion on his condition, admitted him. He remained in the hospital until Sunday, but was not during that time confined to bed. On that day after Mrs Jamieson had administered a warm drink, he suddenly left the hospital and did not again return. In the afternoon he was found in Wilson's tin shop, corner of Blanchard and Johnson streets, and on being asked what he wanted he demanded drink. He was pointed to a saloon down street, where he could get it and left. Mr. Wilson then discovered that a bottle, which had contained about an inch of muriatic acid, on Saturday night, was empty. He cannot account for its disappearance in any other way than by the supposition that Mead, thinking it was whiskey, drank it. He was arrested the same night and died the following morning. Mead stated at the hospital that he had come down from the mainland where he had been working on the railway, and that he had a brother on the second division, employed on telegraph construction. The above facts will throw some light on the sudden death of the unfortunate man, and although there is no certainty that he drank the acid there is a very strong probability that he did. He was apparently a strong man, reduced by dissipation.

Notice to the Public,

REFERRING to the statement of the learned Counsel, Theodore Davie, made in the Police Court and published in the daily papers, I desire to say that the said learned Counsel met me at the office of Mr. Mills and did consult with me—just as I stated in the Court. I find the following entry in the Office Diary of Mr. Mills, as a legal charge against me "Pettigrell vs. York —"Attending Theodore Davie and Pettingell, "August 28." Also in the "Call Book" kept by the clerk in Mr. Mill's office, that on August 28th the name of said learned counsel, Theodore Davie, appears and immediately thereafter my name appears as callers at the office of Mr. Mills. I defy the said learned counsel, as some of the press are pleased to dub him, to make a statement under oath such as he had the audacity and villainy to make in the court of justice yesterday, Nov 3. In conclusion I must emphatically say that the learned counsel, Theodore Davie, stood up in a Court of Justice yesterday and stated to the judge thereof deliberate, malicious and wilful lies, and I am able to produce proof to that effect.

Respectfully,
R. C. PETTINGELL.
